# 2022 App Store Transparency Report

Since it launched in 2008, the App Store has proven to be a safe and trusted place to discover and download apps. At Apple, we're committed to creating a great experience for customers and developers — and we review every app for compliance with our App Store Review Guidelines to uphold the highest privacy, security, and content standards.

Our App Store Transparency Report provides data about how we operate the App Store in all 175 countries and regions where it's available. Below you'll find information about our efforts to help keep the App Store a safe and trusted place for users to find apps they love. This report covers data from 2022, and we'll update the information annually.
